Venue

7th All-Russian Research to Practice Conference with international participation "Protection against increased noise and vibration" will be held in one of the most beautiful cities in the world – in Saint Petersburg. The city impresses with its unique architecture, magnificent opera and drama theatres with an inspiring atmosphere of literary and musical heritage, luxurious manors and palaces.

The hotel with international level of service Park Inn by Radisson Pulkovskaya Hotel & Conference Centre St Petersburg was chosen as the conference venue in 2019. The hotel is located in one of the most beautiful areas of the city, just 20 minutes from the airport and 45 minutes from the historic city centre and suburbs. There are many shops and restaurants, monuments and parks near the hotel.

Park Inn Pulkovskaya hotel offers special prices for the conference participants.

Baltic State Technical University 'VOENMEH'
named after D.F. Ustinov

With the support of LLC Acoustic Design Institute

7th All-Russian Research to Practice Conference with international participation

Protection against increased noise and vibration

19-21 March 2019
Saint Petersburg, Russia

noise2019.com

Scientific program

The conference will be held in the form of plenary and breakout sessions on the following topics:

- noise issues in the cities;
- road and railway transport noise (latest developments in the field of noise protection, experience in using noise barriers);
- aircraft noise (generation, monitoring);
- noise calculations and choosing noise mitigation measures when designing facilities;
- noise from the stationary sources;
- vibro-acoustic calculations;
- vibro-acoustic measurements;
- noise impact on the human body;
- infrasound (generation, propagation);
- noise control in shipbuilding;
- architectural acoustics;
- noise and vibration mitigation measures;
- sound insulation and absorption, vibration insulation and absorption;
- noise-reducing mufflers;
- noise and vibration reduction at workplaces and manufacture.

The conference will also have an educational aspect: a number of training seminars are included in its program. Seminar participants will receive a document of a standard form on professional development.

Welcome to the conference!

We invite you to take part in the **7th All-Russian Research to Practice conference with international participation 'Protection against increased noise and vibration'**, which will be held on 19-21 March, 2019 in St. Petersburg.

The conference is aimed at solving urgent problems of scientific and applied nature, professional discussion of priority issues, development of scientific and technical cooperation between the relevant institutions of the participating countries, acquaintance of the managers and specialists from the major Russian companies with the best Russian and foreign practices, as well as improvement of the young scientists' skills, through issue-related presentations of the leading experts.

Leading Russian and foreign scientists, specialists in noise and vibration protection, representatives of the federal agencies, regional management structures and businesses will speak to the participants of the conference.

We also invite you to attend the exhibition of the latest acoustic measurement and noise and vibration protection measures.

President of the All-Russian scientific and practical conference with international participation, Chairman of the Scientific Committee

Doctor of Technical Sciences, Professor,
Head of the Environmental Studies and Health
and Safety Department
BSTU 'VOENMEH' named after D.F.Ustinov,
Honored worker of science of the Russian Federation
Nickolay Ivanov
