

**The Online Scientific Journal
'Noise Theory and Practice'**

has been published since 2015. The founder of the journal is Nikolay Igorevich Ivanov, Doctor of Engineering Sciences, Professor of the department of Ecology and Industrial Safety of the Baltic State Technical University 'VOENMEH' named after D. F. Ustinov, the founder of the transport acoustics in Russia.

'Noise Theory and Practice' is devoted to the fundamental problems in the field of vibroacoustics and accepts papers in the following areas:
- 29.00.00 Physics
- 29.37.00 Acoustics
- 43.00.00 General and complex issues of natural and exact sciences
- 87.00.00 Environmental protection. Human ecology.

All articles submitted to the editorial office are subject to mandatory review. The journal is an open network resource and published four times a year.

Location address of the Editorial office

17 building 'A' Bumazhnaya str.,
office 436-1
+7 (812) 495-77-97

e-mail: issues@noisetp.com
Executive Secretary
Rassoshenko Iuliia

Journal is registered in Federal service for supervision of communications, information technology, and mass media
The certificate of registration
ЭЛ № ФС 77-74057

Contents

Solovieva O. S., Elkin Y.I.	RUS
Protection of residential buildings from the noise of construction sites p. 7-15	
Olekhver A.I., Bogdanov A.V., Remshev E.Y., Silaev M.Y.	RUS
Qualitative assessment of the application of the acoustic emission method for monitoring the response pressure of critical membranes p. 16-28	
Goncharenko B.I.	RUS
Experimental study of the scalar-vector structure of the noise field of an electric train in the presence of an acoustic screen p. 29-35	
Remshev E.Yu., Pavlov A.S., Khramova D.A., Mitchin N.A.	RUS
Evaluation of the possibility of modeling the vibration-noise characteristics of the pipeline and their elements by the method of computer simulation p. 36-41	
Bortsova S.S.	RUS
To assess damage from traffic noise p. 42-49	
Ruslyakov D.V.	RUS
Theoretical studies of vibration and noise generation of carrying systems of multi-spindle woodworking machines p. 50-58
