Noise Theory and Practice

Vol. 3 No. 3

Contents

Arda M., Aydogdu M.
Nonlocal Gradient Approach on Torsional Vibration of CNTs
p. 2-10

Antonov S. N.
Acoustic sensor high-power laser pulse radiation
p. 11-18

Timushev S.F., Gavrilyuk V.N., Aksenov A.A., Klimenko D.V.
Turbomachinery tonal noise source and acoustic field CFD-CAA modeling in presence of SAS complex acoustic impedance boundaries
p. 19-30

Voronkov S.S.
On the sources of aerodynamic noise in a viscous heat-conducting gas
p. 31-38

Drozdova L.F., Kudaev A.V., Matveev P.V.
Investigation of the effectiveness of noise-reducing elements of the enclosure
p. 39-45

Roshchina N.V.
Normative requirements for a noise barriers crp. 46-49

Ivanov N.I., Boiko I.S., Luzzi S.
Carletti E.
Experience in noise protection measures for railways constructions in Russia and Italy
p. 50-60
